	Result	Expected Value	
Shiga toxin <i>E. coli</i> ♦**	Negative	Negative	<p>Shiga toxin E. coli Shiga toxin-producing Escherichia coli (STEC) is a group of bacterial strains that have been identified as worldwide causes of serious human gastrointestinal disease. The subgroup enterohemorrhagic E. coli include over 100 different serotypes, with O157:H7 being the most significant, as it occurs in over 80% of all cases. Contaminated food continues to be the principal vehicle for transmission; foods associated with outbreaks include alfalfa sprouts, fresh produce, beef, and unpasteurized juices.</p>
